FAQ'S

WILL I BE QUALIFIED TO TEACH FEMM?

No. FEMM Ambassadors undergo some of the same training as FEMM teachers, but they do not take on practice clients or complete all the requirements for FEMM teacher certification. FEMM Ambassadors are welcome to lead FEMM intro sessions and provide general information about the science behind FEMM, but they are not qualified to teach cycle charting.

IS THE PROGRAM OPEN TO MEN?

In general, we've found that people are more receptive to hearing the message of FEMM from women. However, we're willing to evaluate on a case-by-case basis, particularly if the male Ambassador would be working closely with a female FEMM Ambassador.

I'M ALREADY A CERTIFIED FEMM TEACHER. CAN I BE A FEMM AMBASSADOR, TOO?

Yes! If you're already a FEMM teacher, most of the training requirements for the FEMM Ambassador program will be waived, since you'll have completed them as part of your teacher training. You'll still need to pay the \$40 fee in order to help cover program costs, though.

WHAT IF I DECIDE WANT TO BECOME A FEMM TEACHER AFTER I'VE BECOME A FEMM AMBASSADOR?

That's fantastic! You're welcome to complete the FEMM teacher certification. If it's within a year of starting the FEMM Ambassador program, you'll be able to count some of your FEMM Ambassador training requirements toward the certification, so you won't have to redo them. Regardless, you'll still need to pay the fee (usually \$900, although WYA offers a limited number of scholarships to members).
